

Overview

Students design a complete platformer game blueprint using seven hands-on missions. They create a hero, levels, power-ups, sprites, and a short pitch.

Learning Outcomes

Explain platformer parts; design a hero; build tutorial and challenge levels; invent power-ups; sketch sprites; pitch a game idea.

Safety Rule

AI helps. People create. Ask a grown-up first. Do not share private information in AI tools.

Materials

Kid workbook, print-and-play pack, pencils, markers, scissors, index cards, stickers or tokens, projector, optional tablet/laptop.

Mission 01: Anatomy of a Platformer

LUX AI KIDS

20 min

Goal

Discover the parts of a platformer: hero, platforms, goal, danger, and rewards.

Create

Platformer Parts Map

Read-Aloud Script

Game designers, this mission helps you build one important part of your platformer. Keep it simple first. You can always improve it after testing.

Activity Steps

1. Look at the example. 2. Complete the worksheet. 3. Share with a partner. 4. Improve one thing.

Check-In

What did you make, and how will it help your player have fun?

Mission 02: Design Your Hero

LUX AI KIDS

20 min

Goal

Create a hero with a name, skills, personality, and mission.

Create

Hero Design Card

Read-Aloud Script

Game designers, this mission helps you build one important part of your platformer. Keep it simple first. You can always improve it after testing.

Activity Steps

1. Look at the example. 2. Complete the worksheet. 3. Share with a partner. 4. Improve one thing.

Check-In

What did you make, and how will it help your player have fun?

Mission 03: Level 1: The Tutorial

LUX AI KIDS

25 min

Goal

Build a safe first level that teaches the player how to play.

Create

Tutorial Level Blueprint

Read-Aloud Script

Game designers, this mission helps you build one important part of your platformer. Keep it simple first. You can always improve it after testing.

Activity Steps

1. Look at the example. 2. Complete the worksheet. 3. Share with a partner. 4. Improve one thing.

Check-In

What did you make, and how will it help your player have fun?

Mission 04: Level 2: The Challenge

LUX AI KIDS

25 min

Goal

Add harder jumps, surprises, traps, enemies, and better rewards.

Create

Challenge Level Blueprint

Read-Aloud Script

Game designers, this mission helps you build one important part of your platformer. Keep it simple first. You can always improve it after testing.

Activity Steps

1. Look at the example. 2. Complete the worksheet. 3. Share with a partner. 4. Improve one thing.

Check-In

What did you make, and how will it help your player have fun?

Mission 05: Power-Ups and Collectibles

LUX AI KIDS

15 min

Goal

Design coins, hearts, shields, keys, and special boosts.

Create

Power-Up Cards

Read-Aloud Script

Game designers, this mission helps you build one important part of your platformer. Keep it simple first. You can always improve it after testing.

Activity Steps

1. Look at the example. 2. Complete the worksheet. 3. Share with a partner. 4. Improve one thing.

Check-In

What did you make, and how will it help your player have fun?

Mission 06: Sprite Design Workshop

LUX AI KIDS

25 min

Goal

Draw hero, enemy, item, and background sprites frame by frame.

Create

Sprite Studio Sheet

Read-Aloud Script

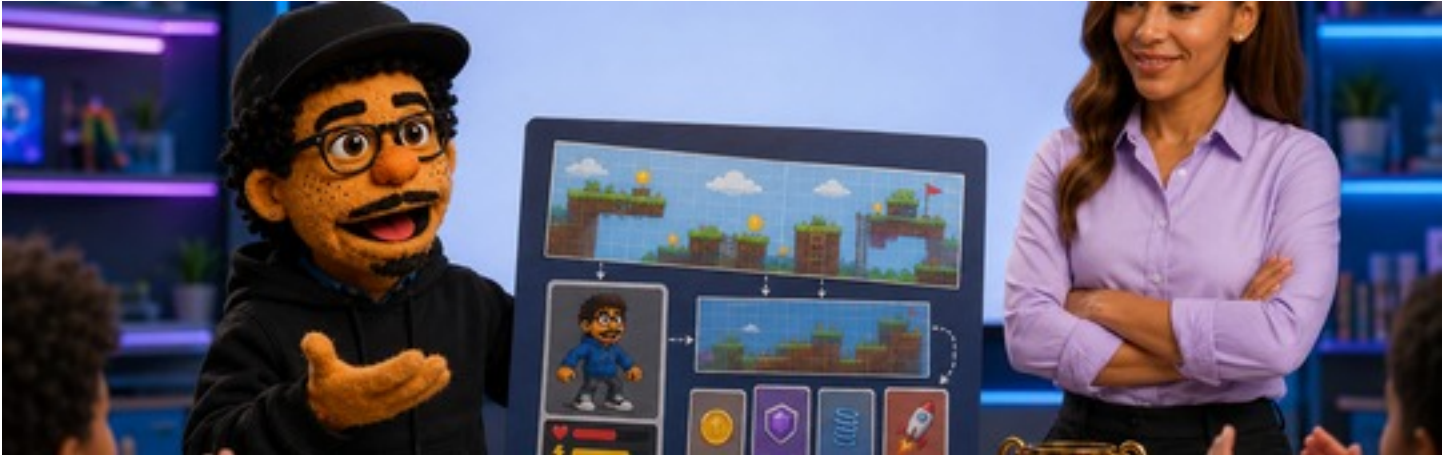

Game designers, this mission helps you build one important part of your platformer. Keep it simple first. You can always improve it after testing.

Activity Steps

1. Look at the example. 2. Complete the worksheet. 3. Share with a partner. 4. Improve one thing.

Check-In

What did you make, and how will it help your player have fun?

Goal

Explain your game idea like a young game designer.

Create

Game Pitch Sheet

Read-Aloud Script

Game designers, this mission helps you build one important part of your platformer. Keep it simple first. You can always improve it after testing.

Activity Steps

1. Look at the example. 2. Complete the worksheet. 3. Share with a partner. 4. Improve one thing.

Check-In

What did you make, and how will it help your player have fun?
