1

Ask a grown-up first.

2

**Do not share your full name, school,

embarrasses someone.**

1

What Makes a Game a Game?

Every game needs a character, a goal, a challenge, and rules.

2

Pick Your Theme

A theme tells where the game happens and what kind of adventure it feels like.

3

Design Your Character

A strong game hero has a name, a clear look, one useful power, and a reason to act.

4

Draw the Board

A level is a path from START to GOAL with fun choices and challenges along the way.

5

Make the Rules

Rules make the game clear, fair, and possible to play without the designer explaining every move.

6

Playtest Time!

Game designers learn by watching real players and changing one thing at a time.

THE GAME RECIPE

Four simple parts make a game fun.

1

CHARACTER

Who do you play?

2

GOAL

What are you trying to do?

3

CHALLENGE

What makes it tricky?

RULES

How do we play?

Character + Goal + Challenge + Rules = GAME!

Draw one idea in each box.
